No. items:
Serial numbers:
No. Project:

1. LIMITED GUARANTEE OF PRODUCT

The present guarantee will be of application in the suppositions in which the photovoltaic module had, in the moment of the delivery, secret faults or that had been revealed by subsequently, and that were making it unable to recover the functions for those that it was made for, with the limitations and exclusions contained in the following conditions.

In forward acquirer will be understood as the natural or juridical person who acquires the photovoltaic modules EXIOM SOLUTION for the use it was made for, which means as a photovoltaic electric power generator. EXIOM SOLUTION through his manufacturer guarantees to the acquirers the photovoltaic modules supplied under the following conditions.

EXIOM SOLUTION guarantees for 10 years the materials that compose the photovoltaic module, as well as the possible faults of the photovoltaic module owed to the manufacturing process. If during this guarantee period the photovoltaic module had stopped working correctly as result of some fault caused by the materials or by the manufacturing process, EXIOM SOLUTION has the right to choose between repairing the defective module, to replace it with an equivalent module or return the money the of the photovoltaic defective module. In case EXIOM SOLUTION decides the repair of the module, EXIOM SOLUTION will use new components in the above mentioned repair, being the components replaced the ones used by EXIOM SOLUTION in his conventional process of manufacture.

2. LIMITED GUARANTEE OF PEAK POWER

EXIOM SOLUTION guarantees 90 % of the production of energy during the first 12 years of the useful life of the modules and 80 % in 13 following years, that means, a limited guarantee of 25 years in total. In case of EXIOM SOLUTION determined that his module is not producing the percentage guaranteed of the minimal exit power specified in the previous table, EXIOM SOLUTION saves himself the right to choose between repairing the defective module, to replace it with a module EXIOM equivalent SOLUTION or to provide additional components to reach the power of specified exit, at least, up to the minimal guaranteed percentage. In case EXIOM SOLUTION decides the repair of the module, EXIOM SOLUTION will use new components in the above mentioned repair, with those components used at the moment by EXIOM SOLUTION in its normal process of manufacture

3. EXCLUSIONES Y LIMITACIONES DE LA GARANTÍA

The offered guarantees do not cover hurts and / or functional failures owed to:

- a) The incorrect manipulation or maintenance of the photovoltaic modules, breaking the instructions that EXIOM SOLUTION provides with his modules.
- b) The repair, modification and / or movement of the EXIOM SOLUTION modules for some technical service foreign to EXIOM SOLUTION or for adding to the EXIOM SOLUTION modules any equipment that are not the ones used by EXIOM SOLUTION.
- c) The abuse, misuse or reckless use of the photovoltaic modules.
- d) Faults of electrical supply on the photovoltaic module due to: atmospheric discharges, fire, flood, accidental break, third parties actions and / or any other supposition or accident out of EXIOM's reasonable control SOLUTION and that have not taken place under normal conditions of assembly operation.
- e) The modules whose serial number have been manipulated or are not unequivocally identifiable will stay out of the present guarantee.
- f) In case of the first acquirer sells or transfers the module to third parties, the present guarantee will remain in force only if the sale or transmission is put in EXIOM SOLUTION's knowledge, sending a writing before it happens.
- g) The installation of the module in saline environments must be realized with insulators in order to avoid the galvanic corrosion between the module and his supporting structure.
- h) The guarantee does not cover the costs associated with the installation, uninstallation, reinstallation and / or transport of the photovoltaic EXIOM SOLUTION modules and / or of any component associated with these by the service realized to solve the problem arisen during the guarantee period.
- i) This guarantee is not applied to the modules marked as "Grade B" or "Grade C".
- j) This guarantee will be applied only to the original buyer of the module.
