Amer A. Zebian

SUMMARY

Mr. Amer Zebian is a Research analyst at International Energy Solutions, S.A.R.L, a software and Hardware Company with a mission to develop reliable renewable small and utility scale energy sources.

Mr. Amer Zebian has developed many MS applications to manage generation supply data for North American energy markets systems. He also helped in Testing Dayzer, Day-Ahead Locational Market Clearing Prices Analyzer (a model for each RTO), and he also helped in the development of the worldwide generation units Database. He is also responsible for the optimal installation of Solar panels based on location, orientation and altitude.

Prior to joining IES, Mr. Amer Zebian held many positions to optimize the Operations and Maintenance of hotels and restaurants in Berlin Germany and across the European Union.

EDUCATION

- **Vocational certificate for Hotel Management**, Potsdam Germany, December 2004.
